CAD Masters, Inc. at Autodesk University 2010

CAD Masters, Inc. wraps up its 6th year at Autodesk University 2010 in Las Vegas, NV.

Walnut Creek, CA, December 8, 2010 – CAD Masters, Inc., proud co-host of Autodesk University 2010, is pleased to wrap up yet another successful year exhibiting at AU.

“This was our 6th year exhibiting at Autodesk University. We think this event is a great way to connect with existing customers, meet new ones and be an essential part of this year’s premier Autodesk learning and networking event.” says Michelle Self, President of CAD Masters, Inc.

AU offers more than 600 classes and hands-on labs, certification exams, as well as community and social events that can help you and your company thrive in today’s economy.

CAD Masters featured [CAD Standards Manager software](#) at booth #1415.

CAD Standards Manager is a comprehensive set of CAD standardization tools that will truly make the organization and deployment of standards within your office a breeze. Well-documented CAD standards improve consistency, helping organizations produce better looking plans that are easier to read, and digital files that are easier to share. Automating those standards improves project collaboration, ensures consistency, speeds drawing production, and improves the accuracy and quality of the plan set. CSM software automates the implementation of CAD standards putting your standards at your CAD staff’s fingertips.

Tune in for our next CSM [webcast](#) on Wednesday, December 15, 11 AM PST to learn more.

About CAD Masters, Inc.

CAD Masters has been recognized as a valued partner by Autodesk in many ways. We are an Autodesk GOLD Partner, an Autodesk Government Specialist, an Authorized Training Center, an Autodesk Certification Center, a Civil 3D Implementation Certified Expert, and a member of the Autodesk Developer Network.
